Building Information Modeling
To better serve our clients, we are applying BIM processes to our vertical and horizontal design commissions.

Through our integrated project delivery, we are increasing the value of design workflows with:

- Extended coordination and validation among design teams
- Interactive visualizations of the design from a familiar 3-D perspective
- Enhanced communication among the design team, contractor, client, and stakeholders
- Greater documentation of project costs and quantities through intelligent reporting of the model

As a result of our investment and commitment to BIM technologies, our construction change orders are an average of one-third of industry standards.
“There are two most significant aspects in BIM practice, the technical aspect and the cultural aspect. I’ve had opportunities to work with many BIM teams in the nation and my experience with Dewberry in BIM has been outstanding. Amongst all, Dewberry has demonstrated not only thorough technical competency but also thorough understanding of the cultural aspect, process, and collaboration.”

Richard Gee, LEED AP

U.S. General Services Administration
Our design professionals are leaders in the industry and evaluate new technologies to determine the best possible applications for our clients.

BIM is more than 3-D design—the virtual models include intelligent information assigned to each object. This data is used by our design teams to test the system in a comprehensive virtual environment prior to construction.
Dewberry® Project Types

- Architecture
- Structural engineering
- Mechanical, electrical, and plumbing engineering
- Interior design
- Transportation
- Site/civil engineering
- Land planning and development
- Visualization
Dewberry is a leading, market-facing firm with a proven history of providing professional services to a wide variety of public- and private-sector clients. Recognized for combining unsurpassed commitment to client service with deep subject matter expertise, Dewberry is dedicated to solving clients’ most complex challenges and transforming their communities. Established in 1956, Dewberry is headquartered in Fairfax, Virginia, with more than 40 locations and 2,000 professionals nationwide. To learn more, visit www.dewberry.com.
