

SUSTAINABILITY COMMITMENT

Sustainability at Dewberry means balancing long-term environmental, social, and economic outcomes with our clients and through our projects.

Our Promise

At Dewberry, we are intentional about embedding sustainability principles into the way we support our clients, communities, and people.

Our People

Through accreditations, education and training, and community engagement, we encourage staff to be sustainability advocates now and in the future.

Our Processes

We are focused on making our internal processes more sustainable by conserving resources, implementing responsible procurement policies, and reducing the environmental impact of our owned facilities and fleets; and communicate our sustainability targets and progress through our *Corporate Social Responsibility Report*.

Our Projects

Through our work with commercial, state and local, and federal clients, we leverage talent from across the company to deliver comprehensive sustainability solutions.

DAVID J. MAHONEY, PE
